

Job Opportunity PeopleSoft Developer/Analyst New Jersey Turnpike Authority

The New Jersey Turnpike Authority (NJTA) is seeking a full-time PeopleSoft Developer/Analyst. The successful candidate will be a member of a group responsible for daily production support, as well as developing reports, programs, integration points, customizations, applications, and administering the NJTA's PeopleSoft systems. This is a technical position which requires strong PeopleSoft technical skills. The selected candidate may also be assigned similar responsibilities with other NJTA applications/systems.

Minimum Qualifications

- Bachelor's degree in Computer Science or closely related technical field. Five plus (5) years working with PeopleSoft.
- Excellent communications skills, written and interpersonal skills.
- Strong analytical, design, and problem solving skills.
- Excellent Oracle Relational database programming skills (10g, 11g preferred).
- Good functional knowledge of some of the Financials Modules (rel 9.1) or HR/Payroll (rel 9.0)
- Strong technical skills in App Designer, SQR, SQL, App Engines, Crystal, PeopleCode, PeopleTools (8.51 preferred), COBOL, System Admin/Security.
- Good understanding of UNIX operating systems (IBM AIX preferred) with experience in shells scripting.
- Working knowledge of OOP programming languages such as C++ and JAVA as well as HTML and XML.
- Knowledge of PeopleSoft application server/web server/process scheduler software a plus.

To apply

Send a resume, application and supporting documents to the New Jersey Turnpike Authority, P. O. Box 5042, Woodbridge, NJ 07095-5042. Attention: Human Resources
